ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and society. We will provide individual attention world class quality of education and character building.

AIJUT ADD-ON PROGRAM

Add-on courses are designed to equip the students to face the emerging challenges in the job market and another way to gain more knowledge on subjects.

Graduates who have completed add-on courses may be able to command higher salaries than their peers who have not completed additional training. This is because employers recognize the value of specialized expertise and are willing to pay a premium for it.

Journalism is the production and distribution of reports on the interaction of events, facts, ideas, and people that are the "news of the day" and that informs society to at least some degree of accuracy. Science journalism conveys reporting about science to the public. The field typically involves interactions between scientists, journalists and the public. Science News is edited for an educated readership of professionals, scientists and other science enthusiasts. Written by a staff of experienced science journalists, it treats science as news, reporting accurately and placing findings in perspective.

OBJECTIVE OF THE PROGRAM:

- To update their knowledge and competency in various functional areas of science journalism like Science Communication and popularization, Science News Reporting and Writing, Science Fiction and Plays etc.
- To expose the participants to the world of media and media organization

OUTCOME OF THE PROGRAM:

- Equipped the participants with the requisite expertise so that they can popularize S & T and can also communicate effectively through different media with a view to simulate scientific outlook
- Familiarize the students about the ethics of science journalism

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and society. We will provide individual attention world class quality of education and character building.

ABOUT ADD-ON PROGRAM

Add-on courses help students acquire skills and knowledge that are not covered in their core curriculum. These additional skills and knowledge can make graduates more attractive to employers who are looking for candidates with specialized expertise. These programmes enable the students to acquire a more holistic perspective and thus have better understanding of issues present-day industry challenges and also facilitate the students to gain and develop innovative and creative skills through a wide array of course offerings.

Pharmaceutical Management is a significant sector in the medicinal and pharmaceutical production and distribution industry because of its critical role in decision-making and financial plan placement.

One of the core roles of a pharmacy management is to oversee the pharmacy staff and manage the people in order to maintain positive work relations and results. It prepares students to become a sought-after professional in the pharmaceutical industry.

OBJECTIVE OF THE PROGRAM:

- Identify environmental factors impacting the market for pharmacists
- Understand how to develop a marketing strategy for pharmacy
- Understand an overview of planning activities conducted by pharmacy and health care organizations

OUTCOME OF THE PROGRAM:

- Demonstrate foundational knowledge in accounting, economics, finance, management and marketing in application of concepts and theories

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and society. We will provide individual attention world class quality of education and character building.

AF)UT ADD-ON PROGRAM

Add-on courses help students acquire skills and knowledge that are not covered in their core curriculum. These additional skills and knowledge can make graduates more attractive to employers who are looking for candidates with specialized expertise. These programmes enable the students to acquire a more holistic perspective and thus have better understanding of issues present-day industry challenges and also facilitate the students to gain and develop innovative and creative skills through a wide array of course offerings.

Clinical trials are also known as therapeutic trials, which involve subjects with disease and are placed in different treatment groups, it is an important aspect of interventional trials that serves to optimize, ergonomise and economize the clinical trial conduct. The purpose of the clinical trial is assessment of efficacy, safety, or risk benefit ratio. The function of a trial design is to ensure that the evidence obtained enables student to effectively address the research problem logically and as unambiguously as possible.

OBJECTIVE OF THE PROGRAM:

- Learn the various types of clinical trials and design of clinical trial
- Understand the ethics and selection process
- Understand the implication of clinical trials

OUTCOME OF THE PROGRAM:

- Narrate the various types of clinical trials and design of clinical trial
- Load with knowledge and skills required to perform clinical trials as per regulations and guideline
- Develop employability skills in clinical trial sector

PROGRAM REPORT

- Name of the Program** : A Two-week add-on program on "A detailed view of Clinical Trial study design"
- Date of the Program** : 15-03-2021 to 01-04-2021
- Details of the Resource Person** : **Ms. A.R.Sridevi**
Asst.Professor, Dept of Pharmacology,
Gokula Krishna college of pharmacy, Sullurupeta,
SPSR Nellore Dist. A.P
Contact number: +91 9182727657
Mail id: sridevipharma93@gmail.com
- Objectives of the Program** : Towards completion of this course, students would be able to
- Understand the importance of Clinical trials
 - Learn the various types of clinical trials and design of clinical trial
 - Understand the ethics and selection process
 - Understand the implication of clinical trials
- Topics covered** : The covered topics are
- Role of clinical trial
 - Different types of clinical trials and phases
 - Important regulation and guidelines
 - Design of a clinical trial
 - Randomization and blinding
 - Data management in clinical trials
 - Analysis of clinical trials

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and society. We will provide individual attention world class quality of education and character building.

AF JUT ADD-ON PROGRAM

Add-on courses help students acquire skills and knowledge that are not covered in their core curriculum. These additional skills and knowledge can make graduates more attractive to employers who are looking for candidates with specialized expertise. These programmes enable the students to acquire a more holistic perspective and thus have better understanding of issues present-day industry challenges and also facilitate the students to gain and develop innovative and creative skills through a wide array of course offerings.

Regulatory affairs is a profession developed from the desire of governments to protect public health by controlling the safety and efficacy of products in areas including pharmaceuticals. The field of regulatory affairs deals with the regulatory requirements for marketing authorization of therapeutic products. They are responsible for the presentation of registration documents to regulatory agencies, and carry out all the subsequent negotiations necessary to obtain and maintain marketing authorization for the pharmaceutical products concerned.

OBJECTIVE OF THE PROGRAM:

- Understand the concept of innovator and generic products
- Learn the rules and responsibilities of regulatory professional

OUTCOME OF THE PROGRAM:

- Describe the concept of innovator and generic drugs
- Narrate the regulatory guidelines for filing and approval process for drug
- Enumerate the regulatory bodies

Date: 22-02-2021

PROGRAM REPORT

Name of the Program : A Two-week add-on program on "A Detailed View on Pharmaceutical Drug Regulatory Affairs"

Date of the Program : 04-02-2021 to 20-02-2021

Details of the Resource Person : **Miss. C.B.Hanisha**
Asso.Professor, Dept of Pharmaceutics,
Gokula Krishna college of pharmacy, Sullurupeta,
SPSR Nellore Dist. A.P
Contact number: +91 8019538344
Mail id: hanisha800@gmail.com

Objectives of the Program : Towards execution of this course, students would be able to

- Understand the concept of innovator and generic products
- Learn the rules and responsibilities of regulatory professional
- Learn the regulatory guidelines for filing and approval process
- Learn the data required for drug approval
- Learn about ICH and ICH guidelines

Topics covered : Course was scrolled down with introduction and History of Regulatory affairs and it extends to

- Role of regulatory affairs
- Drug regulatory affairs network in pharmaceutical industry

Dr. BALAGANI PAVAN KUMAR

- Regulatory bodies
- Quality management system
- Regulatory submission process

Outcome of the Program : On accomplishment of this program, a student will be expected to be able to

- Describe the concept of innovator and generic drugs
- Narrate the regulatory guidelines for filing and approval process for drug
- Enumerate the regulatory bodies
- Discuss the quality management system

Number of Participants : 30

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and society. We will provide individual attention world class quality of education and character building.

ABOUT ADD-ON PROGRAM

Add-on courses can help students to develop important employability skills such as teamwork, communication, and problem-solving. These add-on programs supplement students learning and enhances their preparedness to meet the challenges of professional life. These skills are highly valued by employers, and graduates who have these skills are more likely to be successful in their careers.

Molecular docking is an attempt to find the best matching between two molecules. It helps in identifying potential drug candidates by predicting the binding affinity of small molecules to a protein or receptor of interest. Molecular docking could effectively predict the binding mode and binding energy of the protein-ligand complexes and has become a major method of computer-aided drug design (CADD), hence this powerful tool has been widely used in many aspects of the research on various drugs.

OBJECTIVE OF THE PROGRAM:

- Learn how to create and validate a protein homology model
- Learn the theory of docking and sampling algorithms
- Understand the molecular modeling problems

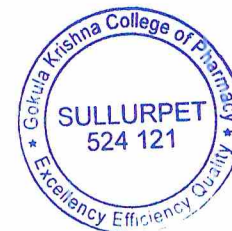

OUTCOME OF THE PROGRAM:

- Describe about molecular mechanics and quantum mechanics
- Explain structure-based drug designing including the molecular docking technique

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and society. We will provide individual attention world class quality of education and character building.

ABOUT ADD-ON PROGRAM

Add-on courses can help students to develop important employability skills such as teamwork, communication, and problem-solving. These add-on programs supplements students learning and enhances their preparedness to meet the challenges of professional life. These skills are highly valued by employers, and graduates who have these skills are more likely to be successful in their careers.

Pharmacovigilance, also known as drug safety, is the pharmaceutical science relating to the "collection, detection, assessment, monitoring, and prevention" of adverse effects with pharmaceutical products. According to the World Health Organization, in pharmacovigilance there are considered to be four main elements to every case of an adverse event. These four elements are an identifiable patient, an identifiable reporter, a drug in question, and the actual adverse event. Pharmacovigilance is concerned with identifying the hazards associated with pharmaceutical products and with minimizing the risk of any harm that the patients can face.

OBJECTIVE OF THE PROGRAM:

- Learn pharmacovigilance method applicable for data collection for safety monitoring
- Learn how to improve patient care safety
- Learn the role of WHO in pharmacovigilance
- Learn about ADR

OUTCOME OF THE PROGRAM:

- Describe how to improve public health and safety in relation to the use of medicines
- Monitor benefit-risk profile of medicines
- Generate independent, evidence-based recommendations on the safety of medicines

PROGRAM REPORT

- Name of the Program** : A Two-week **add-on program** on "**Comprehensive View of Pharmacovigilance**"
- Date of the Program** : 12-11-2020 to 27-11-2020
- Details of the Resource Person** : **Mr. S.Sivakoteswararao**
Asst. Professor, Dept of Pharmaceutics,
Gokula Krishna college of pharmacy, Sullurupeta,
Nellore Dist. A.P
Contact number: +91 8555834381
Mail id: shivakotish.22@gmail.com
- Objectives of the Program** : Towards execution of this course, students would be able to
- Understand the basic concept of pharmacovigilance
 - Learn pharmacovigilance method applicable for data collection for safety monitoring
 - Learn how to improve patient care safety
 - Learn the role of WHO in pharmacovigilance
 - Learn about ADR
- Topics covered** : The covered topics are
- Responsibilities of pharmacovigilance
 - Methods of pharmacovigilance
 - Adverse drug reaction
 - Applications of pharmacovigilance
 - WHO role in international drug monitoring
