Description of the NSS activity	:	<p>As a part of NSS UNIT-I regular camp activities, Gokula Krishna College of Pharmacy, Sullurupeta has conducted an “Awareness Program on Sunstroke” on 27-04-2023 at Sullurupeta town. This has caused many deaths of both children and pets. Avoid any form of strenuous physical activity as much as possible in the direct heat. Even if it is necessary, make sure medical services are readily available, or you have the medical emergency numbers handy. Avoid going out when the sun is at its highest (noon times) because then the temperature is at the maximum. Venture out in late evenings or early mornings. The main objective of this program to create awareness regarding the increase in the mortality due to ignorance of the Sunstroke life-threatening condition that occurs when your body temperature gets too high. It’s usually the result of overexertion in hot, humid weather. Symptoms may include confusion, seizures or loss of consciousness, among others</p>
