ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and society. We will provide individual attention world class quality of education and character building.

ABOUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience. Seminar is one of the techniques of discussion for small groups, a small group is one in which face to face relationship among participants. Seminar is simply together for the discussion and learning of specific techniques and topics.

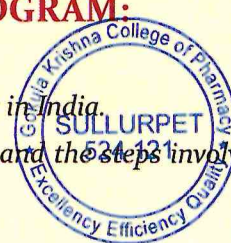

Intellectual property rights (IPRs) are legal rights that protect creations or / and inventions resulting from intellectual activity in the fields like industrial, scientific, literary or artistic fields

The most common IPR include patents, copyrights, Marks and trade secrets.

A patent is an exclusive right grant for an invention, which is a product or a process that provides, in general, a new way of doing something, or offers a new technical solution to a problem. To get a patent, technical information about the invention must be disclose to the public in a patent application

OBJECTIVE OF THE PROGRAM:

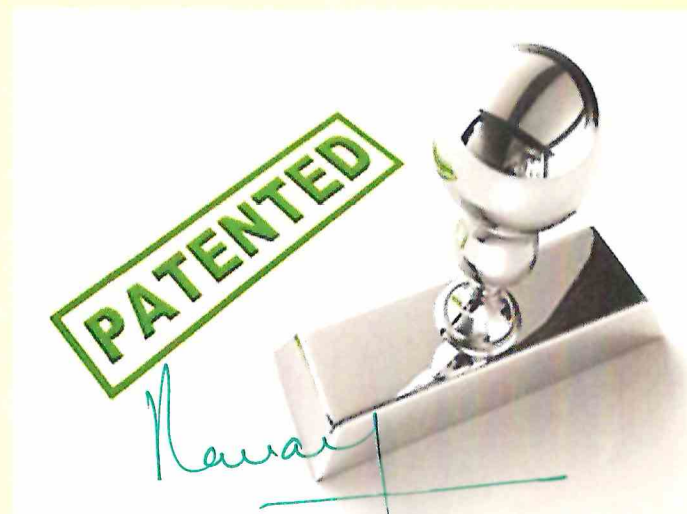

- To bring an over view idea on
- Procedure for obtaining a patent in India.
- Procedure for a grant of patent and the steps involved, format and
- Procedure of submitting

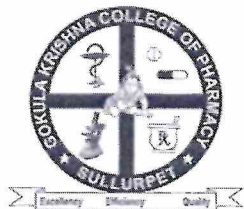

OUTCOME OF THE PROGRAM:

The students participated in the program can narrate about

- IPR
- Affording patents
- Patent filling in India
- Patent search and examination methodologies
- Drafting patent specifications and claims.
- Identify a research area that will make a significant contribution to knowledge
- Provide a potential finding and impact in advance technologies,
- Provide a knowledge on research ,data collection , analysis, statistics, instruments, interpreting of results ,etc.,

ABOUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups, a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

Novel drug delivery system is a new approach that combines innovative development, formulation, new technologies, novel methodologies for delivering pharmaceutical compounds in the body as needed to safely achieve its desired pharmacological effects. clinical research determines the safety and effectiveness of medications, devices, diagnostic products and treatment regimens intended for human use.

Clinical research is a branch of healthcare science that determines the safety and effectiveness (efficacy) of medications, devices, diagnostic products and treatment regimens intended for human use. These may be used for prevention, treatment, diagnosis or for relieving symptoms of a disease.

OBJECTIVE OF THE PROGRAM:

To bring out innovative developments, formulations, new technologies, rational drug designing, novel methodologies for delivering pharmaceutical compounds safely to achieve desired pharmacological effects.

OUTCOME OF THE PROGRAM:

The students participated in this program have gained the knowledge on

- . Recent Advances in Drug Discoveries
 - . Innovative Approaches and Targeted therapeutics.
 - . Integration of artificial intelligence, machine learning,
 - . Rational drug designing,
- Effective and personalized treatments, ultimately improving patient outcomes and quality of life

PROGRAM REPORT

Name of the Program : **One day Seminar on "Innovations in Novel Drug Delivery Systems and Clinical Research"**

Date of the Program : 06-11-2021

Details of the Resource Person : Dr Y.Ramesh

Professor & HOD, Department of Pharmaceutics

Ratnam institute of pharmacy,

Pidathapolur, SPSR Nellore.

Email : yramesh703@gmail.com

Phone : +91 7672026003

Objective of the Program :

- To give the details of innovative developments, formulations, new technologies, rational drug designing, novel methodologies for delivering pharmaceutical compounds safely to achieve desired pharmacological effects.

Outcome of the Program :

Students could able

- Identify different dosage forms used in pharmaceuticals
- Describe the Recent drug delivery systems with

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and society. We will provide individual attention world class quality of education and character building.

ABOUT WORKSHOP

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

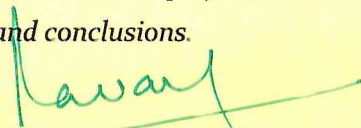

Seminar is one of the techniques of discussion for small groups, a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

- Writing a research proposal is a challenging task due to the constantly evolving trends in the qualitative research design and to incorporate the methodologies in medical advances
- The research proposal is a document that outlines the detailed plan for the intended study.

OBJECTIVE OF THE PROGRAM:

- To state the aim of your research.
- To help the researchers to define the contents and to plan and execute a research project.
- To drive the research project, including data collection, analysis and conclusions.

Dr. BALAGANI PAVAN KUMAR
M.Pharm, Ph.D, FIC, FBSS, FACE, FICCP, MISTE
PROFESSOR & PRINCIPAL
GOKULA KRISHNA COLLEGE OF PHARMACY
SULLURPET, SPSR NELLORE DISTRICT, A.P-524121

OUTCOME OF THE PROGRAM:

On successful completion of the program student could be able to

- Outline the research plan
- Plan of research
- Identify the research questions
- Define the objectives
- Determine the population and sample
- To collect data, analysis and to conclude.

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and society. We will provide individual attention world class quality of education and character building.

ABOUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience. Seminar is one of the techniques of discussion for small groups; a small group is one in which face to face relationship among participants. Seminar is simply together for the discussion and learning of specific techniques and topics.

Entrepreneurship is a process of designing, launching and running a new business which is often initially a small business. The people who create these businesses are called entrepreneurs.

A community pharmacy is a pharmacy that deals directly with people in the local area. It has responsibilities including compounding, counseling, checking and dispensing of prescription drugs to the patients with care, accuracy and legality. The role of a community pharmacist is to provide pharmaceutical care and services to the public. They usually work at drugstores, retail pharmacy chains, independent pharmacies and other public health settings.

OUTCOME OF THE PROGRAM:

- Describe the role of community pharmacist involved in community
- Student can able to be a more traditional entrepreneur construct with the characteristics of an individual devote to achieve outcomes beyond one's personal gain.

Gold Medal 2014-15

OBJECTIVE OF THE PROGRAM:

- To enlighten the students about community pharmacy
- Learn about the qualities of community pharmacists
- Students can understand, how they are involved in community
- Continue their education, network

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and society. We will provide individual attention world class quality of education and character building.

ABOUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups; a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics

Medication errors pose a significant threat to patient

All medication errors must be reported to the food and drug administration.

This study will explore many facets of medication errors and will present a review of a video on medication errors.

OBJECTIVE OF THE PROGRAM:

- Students will learn the overview of medication safety
- Students would learn and understand the ways to improve the safety of medication use
- Students would be able to list out the programs currently in the practice to minimize or prevent medication errors.

PROFESSOR & PRINCIPAL
GOKULA KRISHNA COLLEGE OF PHARMACY
SULLURPET, SPSR.

OUTCOME OF THE PROGRAM:

Upon completion of the program student could be able to

- Describe impact of medication errors on the health care system
- Explain steps to be taken when error is identified
- Describe methods of preventing medication errors and improving medication safety.

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and society. We will provide individual attention world class quality of education and character building.

ABOUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups; a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics.

Statistical research methods involved carrying out a study include planning, designing, collecting data, analyzing, drawing meaning full interpretation and reporting of the research findings. It helps to tools in pharmacological research that is used to sum up experimental data in terms of central tendency like mean or medium and variance like standard deviation, standard error of the mean, confidence interval or range but more importantly it authorize us to managing hypothesis testing.

OBJECTIVE OF THE PROGRAM:

Upon end of the program students will

- Understand the basic statistical concepts and their applications in the pharmaceutical research.
- Learn how to use and select basic statistical hypothesis tests.
- Learn the key data collection methods.
- Understand the statistical significance.

OUTCOME OF THE PROGRAM:

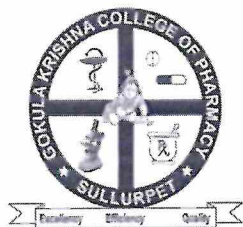

Upon end of the program students could able to

- Describe various steps of process of statistical hypothesis testing and level of statistical significance.
- Generate ideas that will help in the choice of a suitable research topic.
- Identify and explain the different categories and sub-categories of research design.

ABOUT COLLEGE

Gokula Krishna College of Pharmacy (GKCP) is established in the year 2007 which is sponsored by Sri Krishna Educational Society, Hyderabad. The institution was started with an idea of imparting pharmacy education in rural area, but now it has students from all over state. Though young, GKCP has made a significant impact in various areas of teaching and research, and continues to strive for excellence. The institute was approved by the Pharmacy Council of India (PCI), All India Council of Technical Education (AICTE) and State Govt. of Technical Education, AP. The institute has been offering four year's B.Pharmacy course (100), two year's M. Pharmacy course (Pharmaceutics-18 & Pharmacology-18) which is affiliated to JNTUA, Anantapuramu.

"Our mission is to educate students from all over the state even country including those from the local and rural areas so that they become enlightened individuals improving the living standards of their families, industry and society. We will provide individual attention world class quality of education and character building.

ABOUT SEMINAR

Seminar is a method of teaching mostly used for higher education. It is an instructional technique which involves paper reading on the theme. It includes the group discussion to clarify the complex aspect of theme. The student learns to develop the ability of keen observation of experience.

Seminar is one of the techniques of discussion for small groups; a small group is one in which face to face relationship among participants.

Seminar is simply together for the discussion and learning of specific techniques and topics..

Clinical research studies in which people volunteer to help find answers to specific health questions. Clinical research is conducted on drug candidate's vaccines candidate's new medical devices and new diagnostic assays. Clinical research includes pre clinical research on microorganisms and animals filling for regulatory states and obtaining regulatory approval with new drug applications to market the drug. Clinical trials help to ensure the safety and effectiveness and newly formulated treatments modalities to bring a new drug to the market that is safe, effective, and beneficial to patients.

Dr. BALAGANI PAVAN KUMAR
M. Pharm, Ph.D, FIC, FBSS, FAGE, FICCP, MISTE
PROFESSOR & PRINCIPAL
GOKULA KRISHNA COLLEGE OF PHARMACY
SULLURPET, TIRUPATI Dt. A.P - 524121

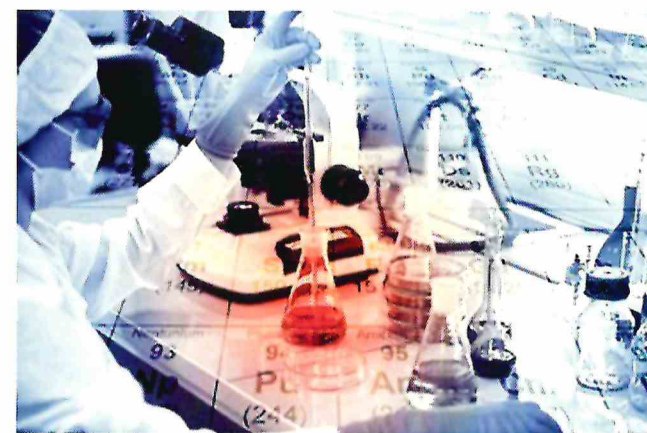

OBJECTIVE OF THE PROGRAM:

- student should learn about
- . Current regulations involved with the clinical research process.
- Clinical research is the study of health and illness in people. It involves various stages of research, from drug discovery to market release
- It helps to studies can influence best practices in health care and contribute to medical knowledge.
- Understands the goal of a drug development program is to bring a new drug to the market that is safe, effective, and beneficial to patients.

OUTCOME OF THE PROGRAM:

On completion of the program students could able to

- Narrate the phases and regulations of clinical research
- Discover and confirm the role of new drugs for the future pharmacotherapy of mankind as a whaler.
